FOREWORD

This publication contains data on wage rates, salaries and hours of labour in Nova Scotia industries as of the last pay period preceding October 1, 1982.

The report is prepared from information gathered by the Canada Department of Labour for the annual Survey of Wage Rates and Working Conditions. The Research Division of the Nova Scotia Department of Labour and Manpower has cooperated with Labour Canada in the conducting of this mail survey. The Division has translated this computerized information into detailed industrial and regional wage rate and salary statistics.

We wish to express our appreciation to the Nova Scotia employers whose participation in this survey has made possible the publication of this report.

GUIDE TO THE CONTENTS OF THE REPORT

This report presents information on wage rates and salaries by occupation and on hours of work in industries in Nova Scotia. The information covers the last normal pay period preceding October 1, 1982.

TECHNICAL NOTES

The Technical Notes outline the scope of the survey and describe the methods used in compiling the information included in the report. They also explain the nature and context of the tabular material presented, the terms used in the report and the criteria for publication.

PART 1: HOURS OF LABOUR

This section provides information on the standard hours of labour within the nine major industries, as well as the 59 sub-industries. The average standard hours per week are shown for each industry under the headings office and non-office occupations. Some industries have occupations which do not fall into either category and therefore are classed as, other non-office.

PART 2: INDUSTRY WAGE RATES AND SALARIES

This section is composed of 40 separate industries and their corresponding records of occupational wage rates. These industries come under seven general headings: Mines (including Mills); Manufacturing; Transportation, Communication and Other Utilities; Trade; Finance, Insurance and Real Estate; Community, Business and Personal Service Industries; and Public Administration. Subject to the criteria for publication, each industry record presents information for a number of occupations characteristic of the industry being surveyed.

PART 3: PROVINCIAL WAGE RATES AND SALARIES

This section provides wage rate data specific to office and non-office occupations, which were studied on a provincial basis. Included are 37 office occupations and 24 non-office occupations, for a total of 61. In these records an average salary or wage rate is identified.

PART 4: COUNTY WAGE RATES AND SALARIES

Fourteen of 18 counties provided publishable wage rates and salary data for this section. The four counties not listed (Victoria, Antigonish, Richmond and Annapolis) did not meet the criteria for publication.

The records include office occupations, maintenance trades, service occupations and specific industry occupations in each county where the criteria for publication has been met. Specific industry occupations have been classified by major industries. For each occupation, the average and predominant range for the wage rates and salaries are identified.

PART 5: URBAN AREA WAGE RATES AND SALARIES

In this section, wages and salaries for five urban areas of Nova Scotia and one 'Other Urban' area were identified. Each urban area included not only the immediate city or town, but also the surrounding area. (See Appendix B). Establishments in this category have operations spread throughout a number of cities or towns and, hence, cannot be defined within a single area.

PART 6: INTER-INDUSTRY AND INTER-CITY OCCUPATIONAL COMPARISONS

In this section, comparisons are provided of wage rate and salary data for those occupations which are found in the various provincial county and urban areas. These comparisons cover wage rate and salary data for 1982.

APPENDIX

This Appendix provides a map of the Province of Nova Scotia and defines a number of occupations appearing in this publication. These definitions are provided to enable users of this survey to compare job content and responsibilities of various occupations.

TECHNICAL NOTES

The complete survey of Wage Rates, Salaries and Hours of Labour covers approximately 563 establishments in Nova Scotia. All reporting establishments have a work force of 20 or more employees in the industries and urban areas surveyed.

The Federal Government conducts the survey by mail and a reporting form-questionnaire containing a short description of each occupation to be surveyed is sent to the employers. Occupational descriptions are provided to help employers identify the specific jobs for which wage information is requested. The survey questionnaire is broken into four parts.

1. General Questionnaire: Provides information on number of employees and hours of work, etc.
2. Office Occupations: Includes workers engaged in clerical, accounting and secretarial activities. Office employees are typically paid on a salary basis.
3. Maintenance Trades, Service Occupations and General Labourers: These are engaged in the provision of maintenance and auxiliary services closely connected with the production process.
4. Specific Industry Occupations: Includes those occupations particularly characteristic of the industry under consideration.

NATURE AND CONTENT OF THE TABLES:

The wage information contained in this report is presented in three types of tables. The first is an industrial breakdown on a provincial basis. The industry tables show the average and predominant range for each occupation. The wage information applies to office occupations, maintenance trades, service occupations and specific industry occupations.

The second group reports data on a regional basis which includes county and urban area breakdowns. In this section, information is presented by occupational classification. The specific industry occupations have been sub-divided by major industries.

The survey includes a group of tables representing condensed wage rates for selected occupations by sex, industry, county, urban area, and by firm size. The tables are, in the main, repetitive, but because of their comparative form the reader is introduced more readily to the wage trends provincially as well as regionally.

Certain occupations were reported by the employer on both an hourly and weekly basis. Therefore, to make the data accurate and to report as many employees as possible, these occupations were separated according to their pay periods (hourly and weekly).

EXPLANATION OF TERMS

The term "average" as used in the report is the weighted average. To obtain this average, the wage rates or earnings in an occupation are multiplied (weighted) by the number of employees receiving each rate, the total product being then divided by the total number of employees in the occupation used in the calculation of the average.

The "predominant range" of rates and earnings includes the middle 80 percent of the number of all employees reported in an occupation. In other words, of the remaining 20%, ten percent of the workers reported received the highest figure shown in the range or more, and 10% received the lowest figure or less.

"Standard hours per week" refer to the number of hours per week normally scheduled for office and non-office employees in an establishment and during which straight time or regular wage rates are paid. Averages of the standard hours are obtained by multiplying the number of standard hours by the number of workers in each establishment and dividing by the total number of workers.

EMPLOYEE COVERAGE

Office Employees - includes clerical, stenographic, accounting and sales personnel (excluding sales clerks in the trade industry); non-supervisory personnel such as draughtsman and computer personnel. In addition, supervisory, professional and technical staff (excluding technical staff in hospitals).

Non-Office Employees - include personnel directly engaged in the production of goods or services, or the provision of maintenance and auxiliary services. Those employed in storing, inspecting, handling, packing, warehousing, truck-driving, and service personnel are within this category.

EMPLOYEE COVERAGE (Cont'd)

Other - This heading covers classes of employees not considered to be office or non-office for which separate information is required. Only those personnel in education, hospitals, transportation, trade and public administration are classed under this heading.

The survey includes employees paid on an incentive basis, that is, by piece rate earnings or commission pay, in addition to the most common pay type - time rates only. Workers on a piece rate system of pay receive a predetermined amount for each unit of output while those on commission pay (usually sales personnel) receive a percentage of total dollar sales volume. Employees paid by time rates are compensated solely by the hours, days or other time periods they work, regardless of their production or sales volume.

PAY PERIOD CODES

The pay period designations for the wage information are found in brackets on the right side of each page. The codes represent the following pay period:

A - Annually
M - Monthly
BW - Bi-Weekly
W - Weekly
H - Hourly

CRITERIA FOR PUBLICATION

Generally, for an average to be published, the rates which have been calculated must apply to five employees in the occupation in three establishments, or to ten or more employees in two establishments, provided that 80 percent or more of the total number of employees is not reported by one of the two establishments.

These criteria are applied for two reasons: to avoid revealing the rates paid by any one establishment, and to ensure a reasonable degree of representiveness of the data.

Unreported industries and wages and/or salaries throughout this publication do not indicate that they do not exist but that the information is not publishable due to the above criteria.

CRITERIA FOR PUBLICATION (Cont'd)

Wherever possible, wages have been adjusted to show a weekly wage rate. This has been done for the convenience of comparison. When the same occupations are being paid at different pay periods, this weekly rate makes comparison much more convenient.

1982 REPORT

This is the eighteenth annual survey published by the Nova Scotia Department of Labour and Manpower. In this report the industries have been classified from the 1970 Standard Industrial Classification of the Dominion Bureau of Statistics. (Complete details on these classifications appear in the Standard Industrial Classification Manual, Statistics Canada Publication 12-501.)

APPENDIX

A P P E N D I X A

The following are the delimitations of the six Urban Employment Areas¹ for Nova Scotia as shown on the map on the last page.

Amherst - Area bounded by a line beginning at Nappan on the Chignecto Canal connecting with Hastings northeast of Nappan, then bending back to the Nova Scotia - New Brunswick boundary in the direction of Sackville. Area includes all above-named Nova Scotia centres.

Halifax - Cities of Halifax and Dartmouth; North Dartmouth area, Cole Harbour, Eastern Passage area and Herring Cove, Armdale and Fairview areas, Bedford and Waverley areas and Spryfield and Rockingham areas.

New Glasgow - Area bounded by a line from Logan Point to the town of Pictou, south to the villages of Alma, Westville and Eureka, north to Stellarton, New Glasgow, Trenton, and ending in Pictou Harbour. Area includes all above-named centres.

Sydney - Area bounded by a line drawn from Point Aconi to the Little Bras d'Or River along St. Andrew Channel to the village of Barachois. From here east to the village of Gibbon ending at Cape Perce. Area includes all above-named centres.

Truro - Area bounded by a line drawn from the village of Clifton, north to the village of Belmont, east to the village of Riversdale, southwest to the village of Brookfield and back to Clifton. Area includes all above-named centres.

Yarmouth - Area bounded by a line from Sandford on Highway 1 to Ohio on Highway 10 to Arcadia on Highway 3 and ending at Chebogue Point. Area includes all above-named centres.

¹Dominion Bureau of Statistics, Part 1 - Delimitation of Urban Employment Areas. Ottawa, Ontario.

A P P E N D I X B

Salary rates for salespersons, both male and female, were reported according to the following definitions:

Salesperson - Class A

The employee is required to know little regarding the merchandise sold and often works behind a counter selling one or a variety of inexpensive products such as magazines, greeting cards, etc.

Salesperson - Class B

The employee is required to know enough about the merchandise to assist customers in making a selection, and may sell various types of merchandise or specialize in a particular type of commodity such as wearing apparel, bedding, general hardware, etc.

Salesperson - Class C

The employee is required to possess a detailed knowledge of the products and considerable skill in salesmanship; is often on salary and commission and may be required to follow up prospective sales by calling on customers at home. The products sold tend to be of a higher price range, such as furniture, jewelry, etc.

A P P E N D I X C

SELECTED OCCUPATIONAL INDEX

OFFICE OCCUPATIONS

Office Machine Operators

BOOKKEEPING-BILLING-CALCULATING MACHINE OPERATOR, JUNIOR

Under direct supervision, records financial transactions of establishments, using bookkeeping machine and/or prepares statements, bills and invoices to be sent to customers, itemizing amount owed, using billing machines with or without computer devices and/or computes and records statistical, accounting and other numerical data, using a calculating machine. The work carried out is routine in nature.

BOOKKEEPING-BILLING-CALCULATING MACHINE OPERATOR, SENIOR

Under general supervision, records financial transactions of establishments, using bookkeeping machine and/or prepares statements, bills and invoices to be sent to customers, itemizing amount owed, using billing machines with or without computer devices and or computers and computes and records statistical, accounting and other numerical data, using a calculating machine. The work carried out is of a complex nature.

DUPLICATING-MACHINE OPERATOR

Operates a machine that reproduces data from embossed plates on revolving cylinder or from original copy. May type or draw diagram to prepare original copy. Keeps record of copies made.

OFF-SET DUPLICATING-MACHINE OPERATOR

The employee operates an off-set duplicating machine to reproduce single or multi-colored copies of charts, schedules, bulletins, and related material; may clean and oil machine.

Typists, Stenographers and Secretaries

SECRETARY, JUNIOR

The employee schedules appointments, gives information to callers, takes dictation and relieves the employer of clerical work and minor administrative and business details by performing any duties so associated.

SECRETARY, SENIOR

The employee schedules appointments, gives information to callers, takes dictation and relieves the employer of clerical work and minor administrative and business details by performing any duties so associated. The work is of a higher quality - often of a confidential nature, and the employee tends to work directly under higher ranking officers.

STENOGRAPHER, JUNIOR

Under general supervision, the employee takes and transcribes dictation, involving a normal range of business vocabulary, from senior employees, as required, and types the material in the prescribed form. The job may involve routine clerical duties and the employee may work in a stenographic pool.

STENOGRAPHER, SENIOR

Under general supervision, the employee takes and transcribes dictation, generally of a difficult nature involving varied and technical vocabulary, from various senior employees; as well as performing related routine clerical duties. The job does not normally involve the duties associated with those of a secretary. The employee may work in a stenographic pool.

TRANSCRIBING MACHINE OPERATOR, JUNIOR

The employee transcribes letters, reports or other recorded data using a transcribing machine and a typewriter. The terminology and work arrangements involved are easily understood and follow a standard pattern.

TRANSCRIBING MACHINE OPERATOR, SENIOR

The employee types letters, reports or similar work by transcribing dictation from a recording machine. The work is generally of a difficult nature involving varied and technical vocabulary.

TYPIST, JUNIOR

The employee types letters and reports, summaries or similar work from typed, printed or written matter where set-ups and terms are generally clear and follow a standard pattern; and may perform similar work on stencils.

TYPIST, SENIOR

The employee types letters, reports, tabulations, charts and similar material; combines material from several sources into one typing operation; types tables, reports and other material from very rough and involved drafts; copies material where close attention is required due to frequent and varied use of technical and unusual wording; and may perform similar work on stencils or hectograph originals.

Clerical Occupations

ACCOUNTING CLERK, JUNIOR

Under supervision, the employee performs one or more of the routine standardized accounting operations, such as posting simple journal vouchers, posting accounts payable vouchers, reconciling bank accounts and posting subsidiary ledgers controlled by general ledgers. A knowledge of accounting and bookkeeping principles is not required. The job is generally found where routine accounting work is sub-divided on a functional basis among several workers.

ACCOUNTING CLERK, SENIOR

Under general direction, the employee follows standardized procedures and accounting practices in performing duties of a varied or specialized nature in keeping one or more sections of a complete set of books or records of the business transactions of an establishment. The work involves duties such as posting and balancing subsidiary ledger or ledgers; coding invoices or vouchers with proper accounting distribution; summarizing and analysing transactions; preparing regular and special reports; and carrying on correspondence regarding routine transactions. A working knowledge of general accounting and bookkeeping procedures is usually required. The job is generally found where routine accounting work is sub-divided on a functional basis among several workers.

BOOKKEEPER, SENIOR

The employee keeps a complete record of financial transactions of an establishment or undertaking; and may prepare financial statements and accounts for the year (or other specified period), calculate and arrange payment of wages, and prepare and mail statements of accounts to customers. Under general direction, the employee may also supervise junior bookkeepers or junior accountants.

CLERK, JUNIOR

Under close supervision, the employee performs duties of a routine and repetitive nature. The job requires no special knowledge of systems or procedures.

CLERK, INTERMEDIATE

Under limited supervision, the employee performs semi-routine clerical duties in accordance with established procedures of moderate complexity and requiring judgement in the selection and interpretation of data; and follows a standardized pattern in carrying out assignments and performs such types of work as checking invoices, preparing customs

entries, posting data in record books, and preparing standard reports or summaries. The employee may also compile statistics from source materials such as production and sales records, personnel records and questionnaires; may code data; and may check and correct listings from computers.

CLERK, SENIOR

Under little or no direct supervision, the employee performs advanced and complicated clerical duties requiring the exercise of considerable judgement and independent analysis, and a considerable knowledge of departmental or company procedures. The employee performs such types of work as preparing complex reports or maintaining complicated records, coordinating reports which require extensive preparation or involved calculations and control functions, preparing special reports or summaries; and may verify accuracy, and edit input-output data from computers by reviewing or examining listings, checked by intermediate clerks, with source material.

COMPUTER OPERATOR, SENIOR

Under general supervision, the employee monitors and controls a computer by operating the central console; confers with technical personnel in the event that errors require a change in instructions or sequence of operations; maintains operating records such as machine performance and production reports; and may give some direction sheets to determine equipment set-up and run operations. The employee is usually competent to work at the highest level of all computer operation phases while working on his own most of the time.

COMPUTER PERIPHERAL EQUIPMENT OPERATOR

The employee operates a variety of computer peripheral (ancillary) equipment that converts data from one form to another and sorts, tabulates, reads and prints data.

COST CLERK

Under direction, the employee calculates the cost of different aspects of the business and presents said information in the form required; selects records such as time sheets, payrolls, production sheets, material accounts and operating charts; extracts the data required for calculations; compiles cost figures and prepares the required reports; and may prepare a composit report to show total costs, selling prices and profit.

DATA-ENTRY OPERATOR, SENIOR

The employee operates an alphabetic and/or numeric keypunch machine to transcribe data from source material onto punch cards; records and verifies accounting and statistical data on punch cards, working from a wide variety of source documents and coded material; and may assist in the scheduling of keypunch functions.

DRAUGHTSMAN, INTERMEDIATE

The job's duties are of more than average difficulty and although the employee is checked by his/her superiors, he/she may supervise junior draughtsman.

DRAUGHTSMAN, SENIOR

The employee prepares the more complex working plans and detailed drawings of cross sections, charts, maps and diagrams from rough or detailed sketches or notes; draws to scale through the use of draughting instruments; makes difficult computations such as those involved in the strength of materials, beams and trusses; verifies completed plans or drawings, checking dimensions, materials to be used, and quantities; writes specifications; make adjustments or changes in drawings or specifications as required; and may also carry out routine draughting assignments. A senior draughtsman may specialize in one field, such as mechanical or electrical draughting.

FILING CLERK

The employee keeps correspondence, invoices and other records arranged systematically in filing cabinets or other cases; locates and removes such materials as required; records any material removed; and classifies any material to be added.

MANAGER, ADMINISTRATIVE

The manager supervises and coordinates activities of personnel in the centralized clerical functions of the organization; organizes office operations such as typing, bookkeeping, preparation of payrolls, and other clerical services; maintains an efficient flow of work; directs supervisors responsible for other clerical and administrative functions; and requisitions supplies and equipment.

OFFICE PERSON

The employee performs any combination of general duties in government or business offices in commercial or industrial establishments. These duties may include furnishing workers with clerical supplies from stock, distributing and dispatching mail and at times even filing correspondence, reports and invoices.

ORDER CLERK

The employee receives orders for material or merchandise by mail, by phone, or personally from a customer; gives or sends price quotations to customers and makes out order forms; and sends or distributes, to the respective departments, orders to be filled.

PROGRAMMER, SENIOR

Under general supervision, the employee develops and prepares machine logic flow charts for the solution of business, engineering and/or scientific problems through the use of electronic data processing equipment; analyses problems outlined by system analysts in terms of detailed equipment requirements and capabilities; designs machine logic flow charting; verifies program logic by preparing test data for trial runs; tests and debugs programs; prepares instruction sheets to guide computer operators during production runs; evaluates and modifies existing programs to take into account changes in systems requirements or equipment; and may give some direction and guidance to juniors.

STOCK RECORDS CLERK

The employee keeps an office record of the type and quantity of materials ordered, received, appropriated, available, and withdrawn; issues requests for stock replenishment based on predetermined minima, or notifies others of impending shortages; and prepares necessary reports.

SYSTEMS ANALYST, SENIOR

Under general supervision, the employee formulates logical statements of business or scientific and/or engineering problems and devises procedures for the solutions of these problems through the use of electronic data processing systems. The work is often of an advanced and complex nature and guidance to junior analysts may be provided.

TELEPHONE/SWITCHBOARD OPERATOR

The employee operates a telephone switchboard to relay incoming, outgoing and inter-office calls; and may perform clerical duties and those of a receptionist as well as keep a record of calls placed and toll charges.

Maintenance Trades

CARPENTER

The employee constructs and repairs wooden structures and fixtures in an establishment; builds, repairs and installs structural items such as cabinets, stairs, doors, etc., using carpenter's hand and power tools; installs window glass; and may mix and pour concrete to repair floors.

ELECTRICIAN

The employee maintains, repairs and installs electrical systems and equipment; inspects, dismantles, repairs or installs equipment such as circuit breakers, controllers, generators, motors, switchboards, transformers and other electrical mechanisms, using hand tools and measuring and testing instruments; and replaces defective wiring and fixtures.

MACHINIST

The employee diagnoses causes of malfunctions in industrial machines, dismantles machines, and examines parts for defects; sets-up and operates machine tools to repair or make machine parts; installs parts, assembles machines and verifies the corrections of malfunctions; and may treat replacement parts by hardening or tempering.

MILLWRIGHT

The employee maintains repairs; installs and moves heavy machines and equipment; inspects plant equipment for defects; plans the work and layout from blueprints and specifications; dismantles, repairs, and reassembles machines and equipment; prepares machine foundations; installs and aligns new machines and equipment; changes plant layouts; and makes operating adjustments.

PAINTER, BRUSH

The employee applies paint, lacquer, rustproofing, or other coating material to metal or wooden fabricated items using a brush or roller; and may paint shop equipment such as work benches, stock racks or machines to improve their appearance.

PIPE FITTER

The employee determines defects in and maintains piping systems for steam, gas, water, air, acid, and paints in establishments; follows blueprints or drawings to determine work aids and procedures, using knowledge of high and low pressure systems, and pressure capacities of piping materials; measures, cuts, threads and installs pipe, valves, gauges and other fixtures; and paints and insulates pipe and fittings.

PLUMBER

The employee assembles, installs and repairs pipes, fixtures and fittings used for water distribution and waste disposals in homes, schools and public and industrial buildings, according to local plumbing codes.

TOOL AND DIE MAKER

The employee makes and repairs dies, cutting tools and workholding fixtures; studies blueprints or drawings and plans work procedures; selects suitable metal stocks and marks guide lines, using precision measuring and marking instruments; sets up and operates any or all of the metal working machines found in the machine shop to shape the stock; finishes, fits and assembles parts - working to close tolerances; and may design dies, tools, jigs and work-holding fixtures.

WELDER

The employee welds metal parts together to fabricate metal shapes or articles, or to repair worn or damaged metal objects as specified by sketches, diagrams or sample parts; prepares metal pieces for welding; assembles welding apparatuses and selects a suitable welding rod; welds metal parts by means of an electric or acetylene welding apparatus; and may join pieces of different metals by brazing.

Service Occupations

BOILER OPERATOR

(STATIONARY FIREMAN: FIREMAN, HIGH PRESSURE, BOILER HOUSE OPERATOR)

The employee controls one or more stationary or portable high pressure boilers that supply steam for heat, power or industrial processes; and may condition boiler-fed water by adding specific chemicals, as well as clean boilers and tighten pipes and fittings using hand tools.

CHAR-PERSON

The employee keeps premises of commercial establishments or office buildings in a clean and orderly condition; mops, sweeps and dusts halls; cleans, waxes and polishes floors; cleans and polishes lighting and metal fixtures; keeps lavatories in neat and orderly condition; and empties trash receptacles. The employee frequently works in the evening, after daytime employees have left the premises.

CLEANER, INDUSTRIAL PLANT

The employee performs any combination of the following duties to keep work areas in production departments of industrial establishments in clean and orderly condition, and to transfer material throughout the establishment: sweeps and mops floors, and cleans aisles and work areas around machines; washes windows; waxes and polishes floors; and uses a hand truck to transfer raw materials or semi-finished products between buildings and/or departments.

ELEVATOR OPERATOR

The employee operates an elevator to transport materials, equipment and people between floors or industrial or commercial establishments - apartment houses, hotels or buildings. The operator may transport either freight only or people only.

INDUSTRIAL TRUCK OPERATOR

The employee drives a gasoline or electric-powered industrial truck or tractor, equipped with forklift, elevated platform or trailer hitch, to push, pull, lift, stack or tier merchandise, equipment or bulk materials in a warehouse, storage yard, or factory; positions fork or lifting platform under the loaded pallets, skids or boxes, or hooks the trucks to a trailer hitch and transports the load to the designated area; unloads and stacks material; and may service trucks and make minor repairs.

LABOURER, NON-PRODUCTION

The employee performs various unskilled light or heavy manual duties such as lifting, carrying, moving and stacking materials or equipment; uses simple tools and equipment in performing duties; and may hand-shovel loose materials or collect or dispose of refuse. The employee is not directly engaged in the production of a product or service.

SECURITY GUARD (COMMISSIONAIRE: WATCHMAN)

The employee makes periodic inspection tours about buildings and grounds to protect property against fire, theft, and illegal entry; examines doors, windows, and gates to see that they are properly secured and not tampered with; watches for irregularities such as broken water pipes, etc., records data such as property damage and machinery malfunctions and may operate the elevators at night. The employee does not carry firearms.

SHIPPER CLERK

The employee assembles, packs and loads merchandise or material for shipment, or packs outgoing shipments, labelling, billing and weighing as required; assembles and loads containers into trucks, trailers or freight cars; and may check outgoing orders against shipping instructions, and may also unload and store incoming supplies.

STATIONARY ENGINEER, GENERAL

The employee operates and maintains stationary engines, refrigeration units, and other mechanical equipment such as generators, compressors, motors, and turbines; reads meters and gauges and adjusts the controls of equipment to verify specified operating conditions; lubricates and makes minor repairs to equipment; keeps records of temperature, hours of operation, and fuel consumption; and may fire boilers or supervise a Stationary Fireman who is responsible for that phase of work. The employee must hold a Provincial Government certificate.

TOOL-CRIB ATTENDANT

Requisitions, receives, stores and issues hand tools, dies and equipment, such as measuring devices and materials in industrial and other establishments. May inspect safety equipment such as belts and ropes and recommend replacement as required.

TRUCK DRIVER, HEAVY

The employee drives a truck with a capacity of more than three tons to transport heavy or bulk merchandise, materials or equipment, performing the same duties as Truck Driver, Light as described below.

TRUCK DRIVER, LIGHT

The employee drives a truck with a capacity of three tons, or under, to transport materials, merchandise, equipment and personnel to and from specified destinations such as railroad stations, plants, residences, offices or within industrial yards; verifies the load against the shipping papers; prepares receipts for loads picked up; collects payments for goods delivered and for delivery charges; and may load and unload the truck as well as make minor repairs.

"URBAN EMPLOYMENT AREAS"

NOVA SCOTIA
